BIG APPLE MOVING

Garage moving checklist

Check what can travel before packing. This worksheet records your decisions; it is not approval to transport any item.

1. Inventory and decisions

Record make/model, size, weight or access notes for bulky or unusual items.

Item / model	Move / reuse / disposal	Approval / preparation	Box / destination

2. Collection-day check

- ☐ Restricted products are excluded from ordinary moving boxes.
- ☐ Acceptance and required preparation are confirmed for unusual equipment.
- ☐ Tools cannot shift; sharp edges are guarded; lids and closures are secure.
- ☐ Hardware is contained and matched to its equipment.
- ☐ Boxes show contents, destination and handling information.
- ☐ Walking and loading routes are clear; essential tools stay accessible.

Stop and check: do not box paint, fuel, propane, chemicals or batteries as ordinary household goods. Follow product/manufacturer instructions and confirm appropriate arrangements with the mover or local authority.
